

Solución Ejercicio #1

The image shows a screenshot of the Visual Studio Code editor interface. The top bar displays the 'Welcome' tab, the active file 'ejercicio1.py', and the extension 'Atom One Dark Theme'. The editor window shows the following Python code:

```
1 print("Bienvenidos")      "Bienvenidos": Unknown word.
2 print("Programa de Operaciones Matemáticas")  "Programa": Misspelled word.
3 print("*****")
4 print(1+1)
5 print(90+430)
6 print(5*4)
```

Below the editor, the 'TERMINAL' tab is active, showing the command prompt output of running the script:

```
PS C:\Users\valve> & C:/Users/valve/AppData/Local/Microsoft/WindowsApps/python3.13.exe c:
Bienvenidos
Programa de Operaciones Matemáticas
*****
2
520
20
PS C:\Users\valve>
```
